

## PRESS RELEASE

# SEE Digi.TV International Project Holds Meetings

*At the Steering Committee meeting project managers presented the status of the project and the progress of individual project activities against project objectives in line with the proposal confirmed by the SEE Programme ([www.southeast-europe.net](http://www.southeast-europe.net)).*

**ZAGREB, 22 February 2012** – The second Steering Committee meeting and the second project partners' technical meeting on the "South-East European Digital Television" - SEE Digi.TV project were held in Zagreb on 20 and 21 February 2012. The project is co-financed by the EU Instrument for Pre-accession Assistance (IPA).

The technical part of the meeting covered the preparation of the documents under the activities related to public awareness of the digitalization of television and the technical framework with emphasis on the draft regional specification of digital receivers and the draft regional specification on compliance testing for digital receivers. With regard to the implementation of the activities within the legal and economic framework, the meeting participants worked on the preparation of regional guidelines for the alignment of national legislations with the objective of a harmonized and effective use of digital technologies in the region, and the guidelines for the switchover from analogue to digital television for countries in the region for which this process is forthcoming.

Also, a draft agenda of the first international conference was prepared. The conference will be held under the SEE Digi.TV project in Trieste, Italy, in April 2012.

The meeting was hosted by the Croatian SEE Digi.TV project partners, the Croatian Post and Electronic Communications Agency (HAKOM) and the Electronic Media Agency (AEM). Meeting participants included the project partners from Slovenia (APEK and Sintesio), Italy (Informest), Austria (RTR), Hungary (IVSZ), Bosnia and Herzegovina (CRA), Serbia (RBA), Montenegro (AEM and EKIP), Macedonia (SRD) and Albania (NCRT).

For more information on the SEE Digi.TV project please visit the project's official website [www.see-digi.tv](http://www.see-digi.tv) and the HAKOM ([www.hakom.hr](http://www.hakom.hr)) and AEM ([www.e-mediji.hr](http://www.e-mediji.hr)) websites.
