

TECHNICAL AGREEMENT

**BETWEEN THE NATIONAL FREQUENCY
MANAGEMENT AUTHORITIES OF**

MONTENEGRO,

REPUBLIC OF CROATIA

and

BOSNIA AND HERZEGOVINA

ON BORDER COORDINATION OF GSM SYSTEMS

IN THE FREQUENCY BANDS

880-915/925-960 MHz and 1710-1785/1805-1880 MHz

2015

1. Introduction

The Agency for Electronic Communications and Postal Services of Montenegro (EKIP) (The Administration of Montenegro), the Croatian Regulatory Authority for Network Industries (HAKOM) (The Administration of the Republic of Croatia) and the Communications Regulatory Agency of Bosnia and Herzegovina (CRA) (The Administration of Bosnia and Herzegovina) (hereinafter called "Signatory Authorities") conclude this Technical Agreement on border coordination of GSM systems in the frequency bands 880-915/925-960 MHz (the GSM 900 MHz band) and 1710-1785/1805-1880 MHz (the GSM 1800 MHz band).

The aim of this Technical Agreement is to lay down the principles, the technical provisions and administrative procedure necessary to regulate the common deployment of the GSM networks in the GSM 900 MHz and GSM 1800 MHz bands in border areas.

2. Principles of coordination

Concerning frequency coordination procedures the relevant provisions of the ECC/REC(05)08 and this Technical Agreement shall be applied.

In order to enhance the efficiency of spectrum usage and to assure operations without harmful interference in border areas the principle of allotment of preferential frequencies in the GSM 900 MHz and GSM 1800 MHz bands for the GSM networks shall be applied.

In order to assure equitable access to the spectrum in border areas number of 57 (fifty-seven) preferential frequency channels in the GSM 900 MHz band and 124 (one hundred twenty-four) preferential frequency channels in the GSM 1800 MHz band shall be defined for GSM networks in each country.

Distribution of preferential frequency channels in the GSM 900 MHz band is given in Annex 1 and in the GSM 1800 MHz band is given in Annex 2 of this Technical Agreement.

All frequency channels which are not defined as a preferential should be treated as a non-preferential channels.

Frequencies on which the field strength exceeds the limits laid down in section 3 of this Technical Agreement shall be coordinated.

3. General technical provisions

Preferential frequencies may be used without coordination if the field strength of each carrier produced by the base station does not exceed a value of 19 dB μ V/m (10% of time, 50% of locations) in the GSM 900 MHz band and 25 dB μ V/m (10% of time, 50% of locations) in the GSM 1800 MHz band for GSM systems at a height of 3 m above ground at a distance of 15 km inside the neighboring country.

Non-preferential frequencies may be used without coordination if the field strength of each carrier produced by the base station does not exceed a value of 19 dB μ V/m (10% of time, 50% of locations) in the GSM 900 MHz band and 25 dB μ V/m (10% of time, 50% of locations) in the GSM 1800 MHz band for GSM systems at a height of 3 m above ground at the borderline.

4. Exchange of information

Notifications of base stations are not required in general. Signatory Authorities will exchange the lists of the GSM base stations installed in the border areas between two countries on the explicit request of any of them.

In the case of harmful interference the data necessary to evaluate and treat harmful interference shall be exchanged between Signatory Authorities.

5. Revision of the Technical Agreement

This Technical Agreement can be revised in light of administrative, regulatory or technical developments, especially in order to comply with relevant amendments of CEPT ERC/ECC decisions, recommendations and reports at the proposal of any Signatory Authority with the agreement of the others.

6. Withdrawal from the Technical Agreement

Any Signatory Authority may withdraw from this Technical Agreement by the end of a calendar month by giving notice of its intention at least six months in advance. A declaration to that effect shall be addressed to the other Signatory Authorities.

Frequency assignments made within the framework of this Technical Agreement prior to the date of entry into force of the withdrawal shall remain valid and be protected according to their status.

7. Language of the Technical Agreement

The original text of this Technical Agreement exists in English in three originals, one for every Signatory Authority.

8. Date of entry into force of the Technical Agreement

The provisions of this Technical Agreement shall be implemented by licensed operators in all countries not later than 6 (six) months after date of the last signature.

For the Administration
of Montenegro

Zoran Sekulić
Executive Director

For the Administration
of The Republic of Croatia

Mario Weber
Executive Director

For the Administration
of Bosnia and Herzegovina

Jasenko Lasta
Acting Director General

Annex 1
