## DIY CONSOLE KIT

A game console you assemble.

A kit that is customizable and hackable.

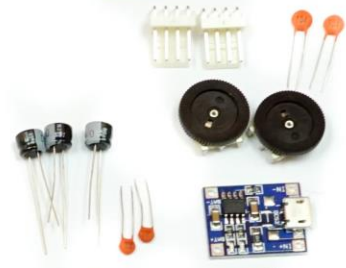

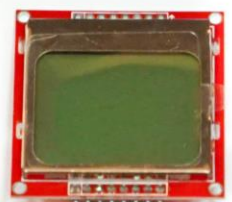

A kit that is cheaper than a newly released AAA game.

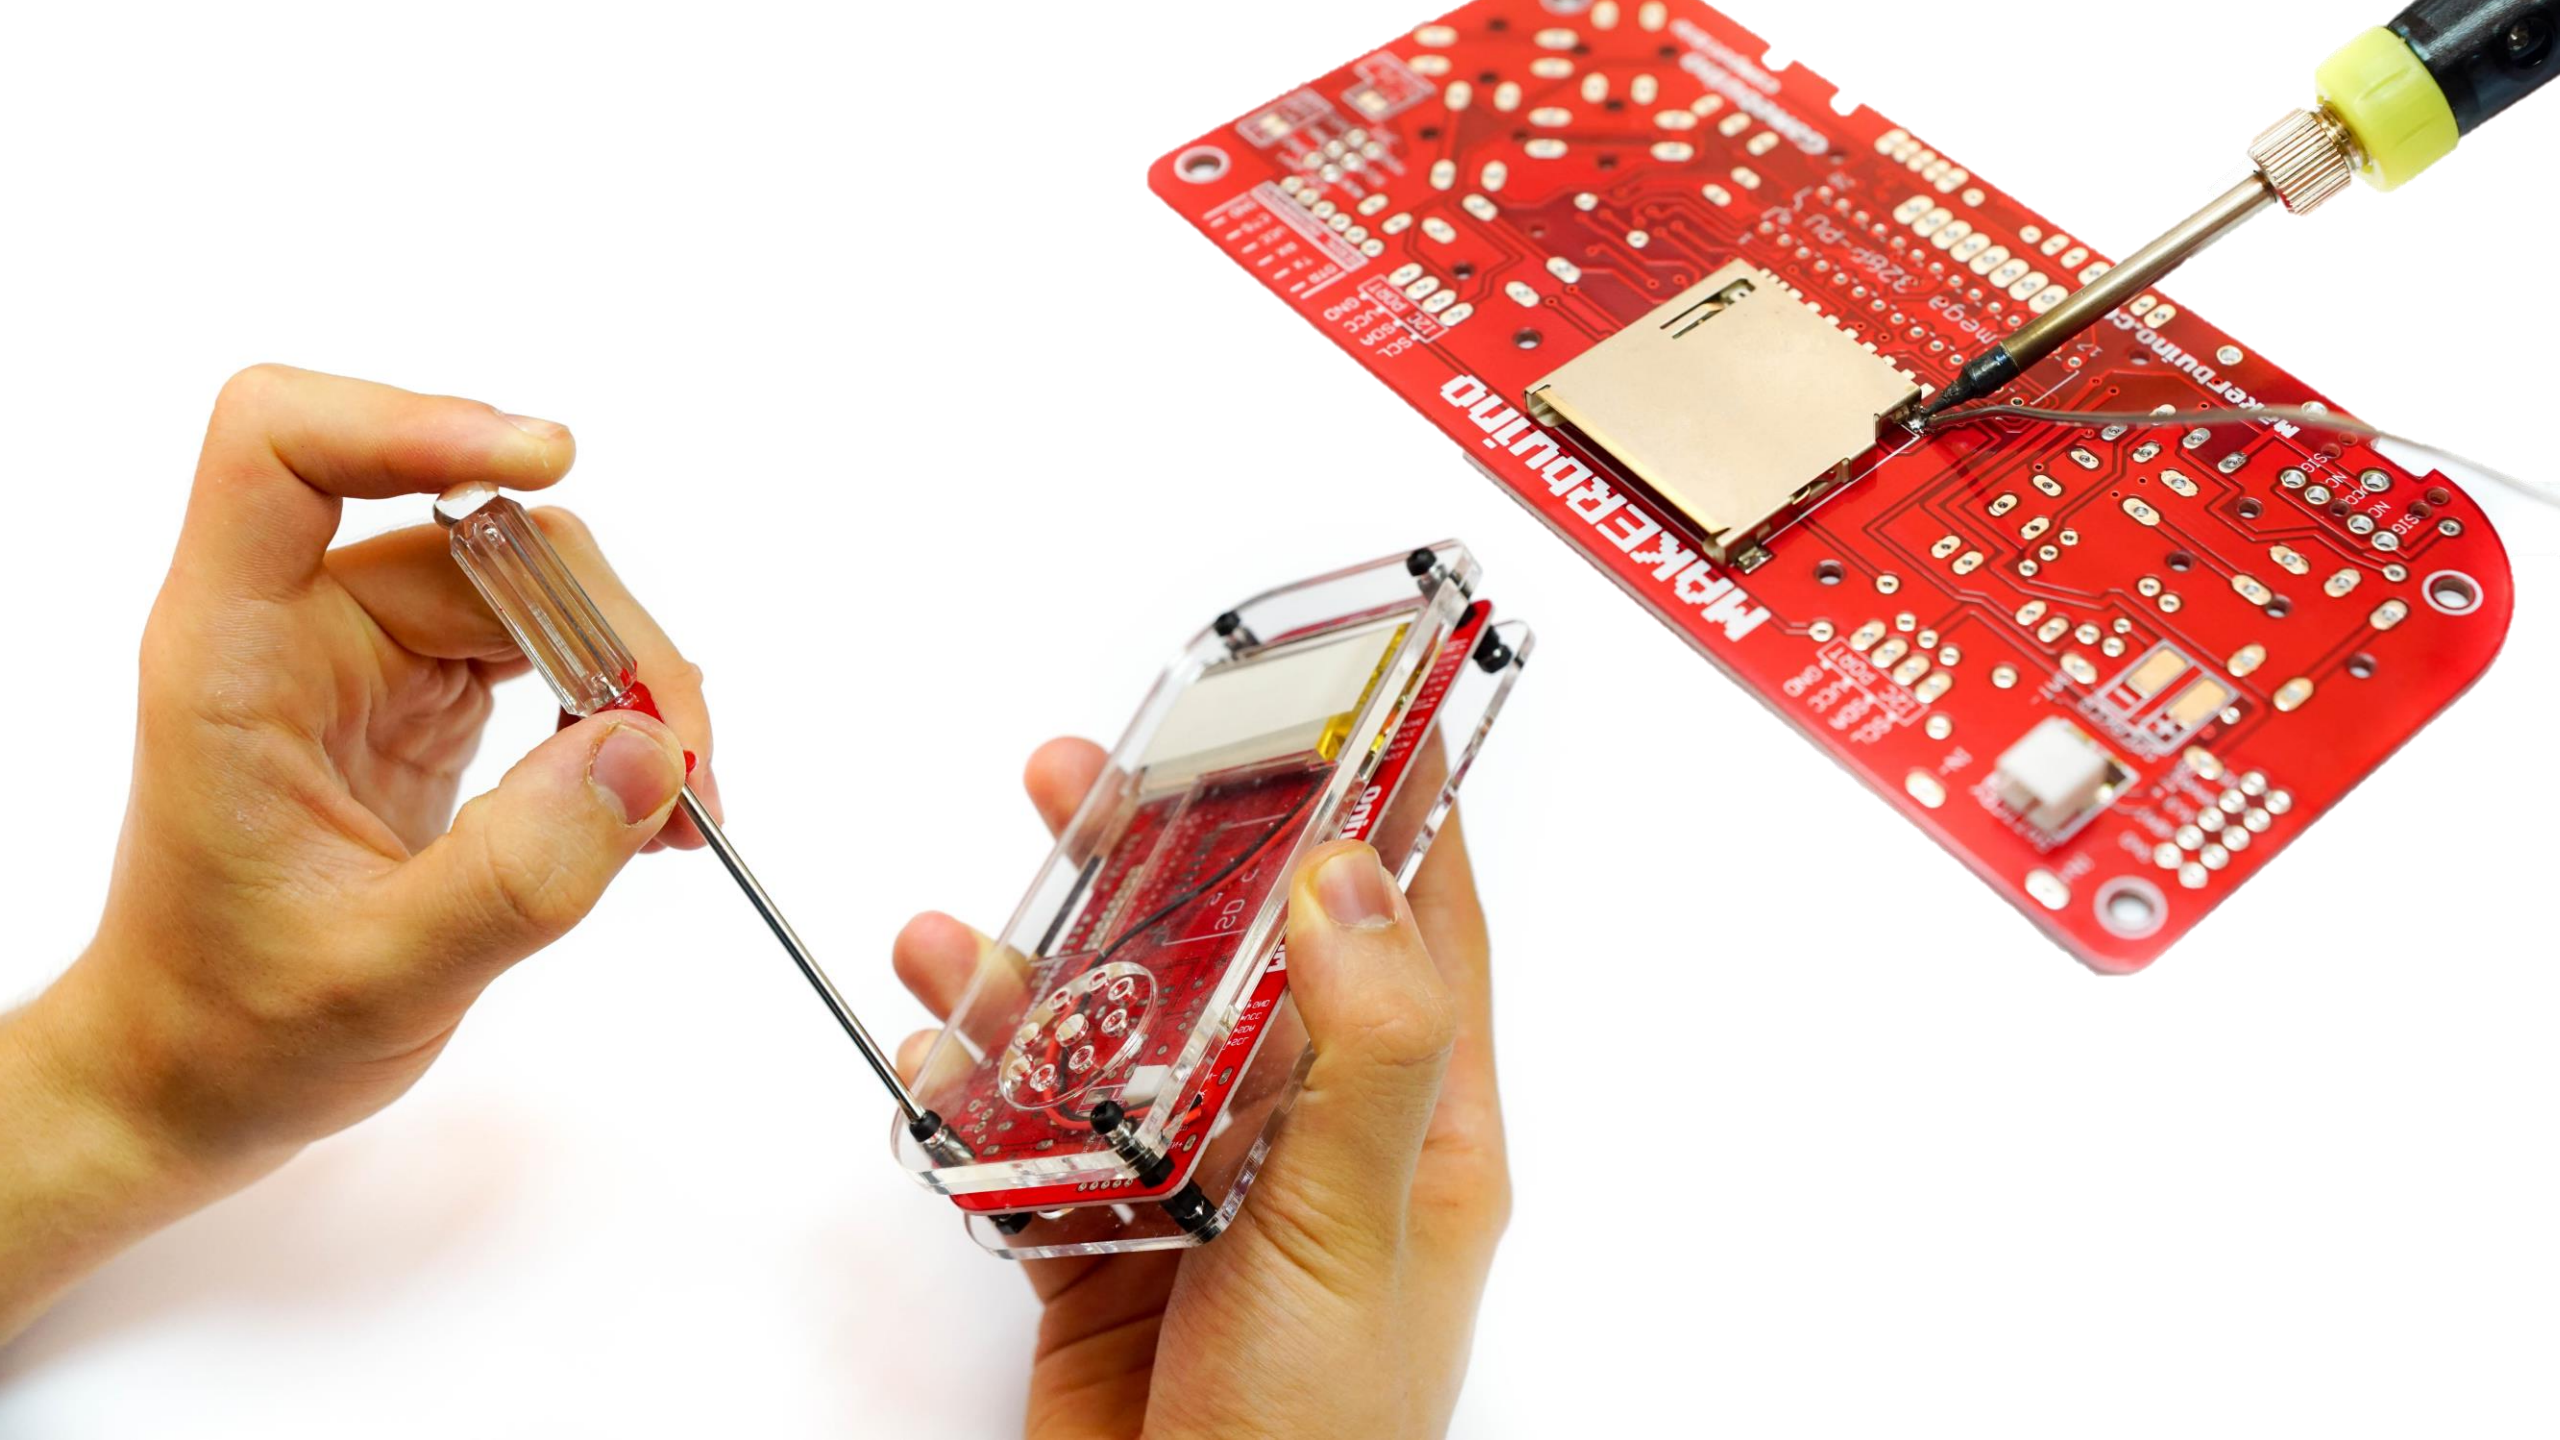

Learn to program your own games or browse an extensive library of already made ones.

Hrvatski predstavnici na Maker Faire-u u Rimu

# KARLOVČANI PREDSTAVILI SVOJ PROJEKT

U Rimu je održan ovogodišnji Maker Faire. Ova manifestacija održava se svake godine u listopadu i ovogodišnje četvrto izdanje bilo je najveće i najbolje do sad. Maker Faire je naziv za tip manifestacije koja slavi takozvani Maker movement. To je pokret koji ujedinjuje kreativnost, stvaralaštvo, nove tehnologije i inovativnost. Maker Faire-ovi održavaju se diljem svijeta, a ovaj u Rimu je najveći u Europi i jedan od najvećih sajmovova ovoga tipa na svijetu. Ove godine Maker Faire u Rimu posjetilo oko 200 tisuća posjetitelja, a svoje projekte izložilo je oko 1500 izlagača. Karlovčani Zoran Gajšak i Albert Gajšak predstavili su svoj projekt MAKER buino, edukativnu open source igraću konzolu pomoću koje se zabavan način uče vještine poput lemljenja, programiranja, dizajna, 3D modeliranja i razumijevanja elektroničkih sklopova. Karlovčani Zoran Gajšak i Albert Gajšak bili su izabrani za predstavnike Hrvatske na konferenciji povodom otvorenja festivala. Na festivalu su sudjelovali izlagači iz 60 zemalja iz svih dijelova svijeta. Više o rimskom Maker Faire-u može se saznati na web stranici [www.makerfairerome.eu](http://www.makerfairerome.eu), a o MAKER buino projektu na web stranici [www.makerbuino.com](http://www.makerbuino.com). Projekt je nastao kao rezultat međunarodne suradnje s Fincem Jonneom Valolom, kreatorom uređaja Pokitto, [www.pokitto.com](http://www.pokitto.com) i Francuzom Aurelienom Gaudom, kreatorom uređaja Game buino, [www.gamebuino.com](http://www.gamebuino.com).
