

**Recommendation on minimum receiver technical
requirements for the reception of DVB-T2 signal in the
Republic of Croatia**

**– IMPLEMENTATION GUIDELINES –
Amendment
February 2020**

Disclaimer

Only the Croatian version of this document is to be considered official and used as a reference.

The Croatian Regulatory Authority for Network Industries (hereinafter HAKOM) has issued “Implementation Guidelines for The Recommendation on minimum receiver technical requirements for the reception of DVB-T2 signal in the Republic of Croatia, October 2019” (hereinafter the Guidelines¹).

Chapter 3 of the Guidelines is amended to read:

3. CERTIFICATION OF DEVICES WITH RESTRICTIONS

Regarding HbbTV requirements, OIV is authorized to certify:

- devices released before July 1, 2020 that meet the requirements of HbbTV v.1.5. Devices released after July 1, 2020 shall support all mandatory features and requirements of HbbTV v.2.0.1 including updates by published errata from the HbbTV Association
- devices released before January 1, 2021 that do not meet requirements related to HbbTV/CI+ functionalities.

It is at the discretion of OIV to certify a device in case of other restrictions/ exceptions to the conditions set out in the Recommendation. Such restrictions/ exceptions shall be stated in the white list.

In case of significant restrictions, especially regarding any (“shall”) requirement of the Recommendation that cannot be resolved by software update, a certificate shall not be granted. In case of grant the certificate to a device with significant restrictions, those restrictions shall be resolved by software update within 3 months, otherwise the certificate shall be revoked.
