

Mobile broadband penetration Q2/2022 and comparison with previous periods

*From Q1 2020 subscriptions that are realized on chosen fixed location over the mobile network, which do not satisfy minimum obligations related to guaranteed speed, will not be reported under the number of fixed broadband subscriptions anymore. Until now, these subscriptions were reported under the fixed wireless access category. They are reported under mobile broadband subscriptions and corresponding indicators instead.

**Due to a change in the reporting system, one operator had a deviation in the number of users reported in previous periods.
